SUMMARY

Quick learner with a passion for challenging careers. Skilled in assessing and managing complex obstacles, recognized as a strong troubleshooter. Proven success in high-pressure environments with decisive team leadership.

WORK EXPERIENCE

AICL Intern

June 2023 - July 2023

- Web application creation with responsive design principles including server-side scripting
- Developed an application using frontend technologies such as HTML, CSS, and JavaScript, with a backend built on PHP and SQL databases.

EDUCATION

BTech Information Technology

2021 - 2025

Sri Venkateswara College of Engineering

- CGPA - 7

Schooling

2007- 2021

M.L.M Mamallan.mat.hr.sec.school

- SSLC - 88.4 %
- HSC - 88.6 %

TECHNICAL SKILLS

- **Languages:** Java and C/C++
- **Databases:** SQL and MongoDB
- **Frontend & Backend :** HTML, CSS, Javascript and PHP

COURSES & CERTIFICATION

- Programming In Java - (NPTEL)
- Java Foundation - (Infosys Springboard)
- Machine Learning - (Special Elective - offered at College)
- IOT Certification - (Infosys Springboard)
- Git Hub - (Infosys Springboard)

PROJECTS

AUTOMATIC AYUSH QR CODE DRUG DISPENSER QR-based Ayurvedic medicine dispenser using Python (Tkinter), OpenCV, and web technologies (HTML, CSS and JS), interfaced with Raspberry Pi.

MONITORING THROUGH AI BASED REMOTELY OPERATED VEHICLE Developed an AI-driven remote monitoring system using a combination of machine learning, IoT, and embedded systems. The project utilized a Raspberry Pi to control and monitor the vehicle, allowing for real-time data collection and analysis for enhanced surveillance and operational efficiency.

TOURISM MANAGEMENT SYSTEM Created a comprehensive web-based tourism management platform utilizing HTML, CSS, JavaScript, PHP, and MySQL.
