EDUCATION

2021 - 2025 Sri Venkateswara College of Engineering SVCE I Chennai

- BE Computer science and engineering • CGPA - 7.43

2010 - 2021 Alwin Memorial Public School I Selaiyur, Tambaram

- Higher Secondary - 470/500 • Secondary - 439/500

SKILLS

- Kali Linux CLI
- Java, C++, C, Python, Flask
- Bug bounty

PROJECTS

ONLINE SHOPPING FILTER APPLICATION

2022

The Mini project for a hackathon is "Online shopping filter application" which assists the user to decide on the best possible deal for the products one could get over various online shopping websites.

- Role: Regression model and Web development Technologies used: FLASK, SKLEARN
- **Won 1st place** in **Hack-ML** 24 hour hackathon in 1st year(2021-22) conducted by the Know I club and TICVIC Technologies.

IPHONE 16 PRE-ORDER WAITING-LIST APPLICATION

2024

This innovative full-stack project addresses real-time challenges during the surplus pre-ordering of the iPhone 16 by effectively managing buyer information through the efficient FCFS algorithm.

- Role: Individual Full stack project Technologies used: REACT JS,NODE JS

BLOCKCHAIN-ENFORCED SECURED SOCIAL MEDIA APP

2024

- Block chain based secured chat application enabled with MetaMask private blockchain browser extension storing every user login and message logs in polygon amoy wallet ledger. Uses Solidity for smart contracts and works based on Proof of Authority algorithm.

- Role: Back-end developer(Node JS, Solidity) Technologies used: REACT JS, NODE JS, SOLIDITY

ACHIEVEMENTS

PALS ECU PECAN+ CTF FINALS, IN PARTNERSHIP WITH CROSSBOW LABS

- Qualified for the finals out of 100+ teams/44 colleges held at IITM Research Park. **17th Place** out of top 40 finalists in National level Capture the Flag event - Hack the Box style using crossbow labs platform.

MODEL PHOEBUS CARTEL 2.0 IEEE RUNNER-UP

- Secured **2nd place** in Model Phoebus Cartel 2.0, an IEEE idea presentation event, during 2nd year. A contest based on given case studies of the historical events by **CISCO** in the world of technology by the IEEE.

HACK-ML TICVIC TECHNOLOGIES WINNER

- Won **1st place** in Hack-ML 24-hour hackathon in 1st year (2021-22) conducted by the Know I club and TICVIC Technologies.

HACKER ASYLUM CTF - SSN INVENTE

- Secured **4th place** in CTF + flag hunt hacking competition conducted on 28th September 2024.

EXPERIENCE

- **General secretary Compete to Compute club (2023-24)**
Orchestrated six diverse events spanning various departments and domains.
- **Research executive KNOW-I club (2022-23)**
Participated in paper presentation contests with "role of Cisco Packet Tracer in Web 4.0".

CERTIFICATIONS

- Fundamentals of Deep Learning - NVIDIA DLI CERTIFICATION.
- Learning ethical hacking from scratch by Z security - UDEMY CERTIFICATION.
- Foundations of cybersecurity - GOOGLE CYBERSECURITY CERTIFICATE.
- Introduction to IOT from IIT Kharagpur Prof. Sudip Misra , Data Analytics with python from IIT Roorkie Prof. Suresh - NPTEL CERTIFICATIONS.
