

KIRAN SEKAR S | FINAL YEAR-ECE

Kiransekarvishal8@gmail.com |

9677526627

EDUCATION

Year	Degree/Exam	Institute	CGPA / Percentage
2025	B.E Electronics and Communication Engineering	Sri Venkateswara college of engineering	7.5
2021	Class XII, Tamilnadu State Board	RBMHS School, Kilminnal	89 %
2018	Class X, CBSE	DAV BHEL SCHOOL	79.6%

INTERNSHIPS AND PROJECTS

Innovatronix:

- o The product focused on developing an innovative smart home solution addressing the pressing issues of security and reliability.
- o The product catered the users with a locally hosted LLM embedded in the central control device creating an ease of operation without the need of internet connection.
- o The product also illustrated the use of local language LLMs such as Tenglish, Hinglish.

UPCHECK:

- o The project focused on developing an innovative solution for the shrimp farms where conventional farming practices in shrimp aquaculture is ineffective.
- o The core idea is to develop an IoT based solution that monitors the shrimp health using the water quality parameters of the pond.
- o The solution also provides mobile app integrated to the IoT sensors that keeps track of the feed and the expenses of the farm in a dashboard enabling business intelligence for the farmers reducing overfeeding of the shrimp.

SmartBlink:

- o The project focused on developing an augmentative and alternative communication tool for people who are affected by both vocal and motor disability.
- o The solution provided an innovative approach of AAC device that uses ocular signals of the patient.

Chat data gen:

- o The project focused on developing a platform that is solely dedicated for community contributed local language dataset for language models.
- o The project addresses the lack of local language datasets and tools to process it in developing conversational LLMs specifically in indian languages.
- o The beta version is currently available for testing(chatdatagen.in.net).

Intern at Vapourfarms:

- o Worked as an intern at vapourfarms in the technical R&D division.
- o Was developing the technical stack required for the vertical hydroponic system.
- o Also worked on the automation required for the farm.

SKILLS AND EXPERTISE

Tools and skills: Nmap, Metasploit, wireshark, penetration testing ,critical thinking, adaptability, time management

COURSEWORK INFORMATION

- o Machine Learning
- o Embedded and real time systems
- o Programming and Data structures
- o Industrial internet of things
- o VLSI system design
- o Computer Organization and Architecture

POSITIONS OF RESPONSIBILITY

Student mentor | RAIC- Robotics and Artificial Intelligence Club

May'23 - July'24

- o Guided and mentored students in acquiring current industry knowledge in the domain of robotics and AI.
- o Helped them with their academics by arranging meetings with their mentors and still maintain a good rapport with them.
- o Coordinated with the Club and helped in the organizing of MAKE-A-THON 5.0.

Volunteer | YRC- Youth Red Cross & Science Club of SVCE

Dec'21 - Present

- o Active volunteer and took part in many activities organized by YRC and Science club.

AWARDS AND ACHIEVEMENTS

- o MAKE-A-THON 4.0: 24 Hour hackathon- March 2023 (Winner)
- o TECHAID : Innovations for Inclusion - The NUDGE institute- Techfest IIT Bombay - December2023 (Top 15 Finalist).
- o ATOMQUEST: Atomberg Technologies- Techfest IIT Bombay -December 2023 (2nd-Runner)
- o Cashflow modelling: Edelwiess Tokyo organized event- Techfest IIT Bombay -December 2023 (Top 4 Finalists).
- o Algoninja: An Algotrading model development competition organized by Findoc- Techfest IIT Bombay - December2023 (Top 15 Finalist).
- o Agronomics: A Agro based business venture pitching event -June 2023 (Runner)
- o IETE Convention- Project presentation- May 2023 (Runner)
- o I-CUBE- 24 Hour hackathon- February 2024 (2nd Runner)
- o INNOVATES: Project presentation- March 2023 (Runner)
- o Product management certification from IIT GUWAHATI – Product matters 3.0
