PROFILE

I am an ambitious computer science student with robust skill set in web development, particularly in back-end development. I possess strong communication and interpersonal skills that promote effective collaboration with colleagues. Eager to apply my technical and problem-solving skills in internships and entry-level roles to kick start my career and make a positive impact on innovative projects.

SKILLS

Technical Skills	Backend development, Frontend development, REST APIs, Data Visualization.
Additional Skills	Debugging, Code Review, QA testing, GitLab, Tableau.
Programming Languages	Python, Java Script, SQL, HTML, CSS.
Familiar Frameworks	Node.js, React.js, Bootstrap, JQuery(AJAX).
Soft Skills	Documentation Practices, Team Collaboration, Interpersonal Skills.

EXPERIENCE

Exeter Premedia Services Pvt.Ltd.	September 2024 - November 2024
Backend Developer Intern	Chennai,India

- Worked as a back-end developer intern, gaining experience in backend development using Node.js and JavaScript.
- Developed familiarity with REST APIs and debugging techniques for code optimization.
- Addressed tickets based on client requirements to resolve issues related to the existing system's features and shortcomings.
- Contributed to the development of a new feature called Language Quality Check, working on both the front end and back end by integrating grammar bot APIs.

Coderz Vision Technology LLP	January 2024 - February 2024
Fontend Developer Intern	Chennai,India

- Developed front end for wireframes designed in Figma, utilizing React.js, TypeScript, HTML, and CSS.

PROJECTS

AGRI-CONNECT: Built an **e-commerce website** accessible without **internet** or **smartphones**, aimed at boosting profit margins for farmers using **Twilio** as a **SaaS**. This project won an award at SVCE's Student Research Day.

MEDI TRACKER: Developed a **tracking device integrated** with a **mobile app**, facilitating **real-time location tracking** and **medical record maintenance**, ensuring emergency assistance even **without internet** connectivity. The device features a QR code, when scanned, it directs users to the mobile app. Enhanced security measures include fingerprint authentication and **IP whitelisting** . [Click Here](#)

Breast Cancer Prediction System: Built a Breast Cancer Prediction System using Wisconsin dataset. [Click Here](#)

Book Recommendation System: Performed **Exploratory Data Analysis** to develop a book recommendation system using **KNN** algorithm. [Click Here](#)

EDUCATION

Bachelor of Computer Science , Sri Venkateswara College of Engineering	2021-2025
HSC , Green Park Girls Mat.Hr.Sec School	2019-2021
SSLC , CSI Ewart Mat. Hr. Sec School	2018-2019
