

MUGILAN S

D E V E L O P E R

PROFILE

Enthusiastic IT student with a strong interest in technology, I am driven by an insatiable curiosity to learn and contribute. Excited about opportunities to apply and expand my knowledge in dynamic IT environments. My ability to inspire and motivate peers makes me a reliable team player with strong leadership qualities, poised to embrace challenges and contribute meaningfully to innovative projects.

PROFESSIONAL EXPERIENCE

Front - end Developer Intern

Vidgan Pvt. Ltd. Ranipet, Tamil Nadu | Jun 2023-Aug 2023

- Utilized Bootstrap to design and develop responsive web pages, contributing to the creation of dynamic and user-friendly interfaces. Enhanced user experience through effective use of modern front-end technologies and design principles.

PROJECTS

Bus Reservation System

- Developed a Java-based application for automating bus seat reservations, including route management, payment processing, and seat selection. Implemented a user-friendly interface and robust backend using MySQL to enhance the booking experience.

Third Eye

- Created an AI-powered web application for crime detection utilizing CCTV camera feeds. Developed using Python, the platform enables police to monitor criminal activities and update crime maps in real-time.

ACCOMPLISHMENTS

- Hack It 2.0 - SVCE Inter-College Competition (2023)** : Awarded 2nd prize for developing a "Threat Detection" project.
- Technical Event Participation** : Competed in the TROJANS quiz event at CIT.
- NSS Camp** : Volunteered at the NSS Annual Special Camp in Irungattukotai (Feb 21-27, 2022) with a focus on "Youth for Rural Health."
- Sports** : Recognized at the state level as a handball player, achieving runner-up position. Demonstrates teamwork, discipline, and leadership.
