

SUMMARY

Enthusiastic and Dedicated Computer Science Engineering graduate eager to start a career in the tech industry through an internship opportunity. with a fit foundation in programming, and software development, along with a passion for learning and a collaborative mindset to excel in a work environment. Seeking an opportunity to leverage academic knowledge and practical skills to get the most out of the field of computer science.

EDUCATION

Sri Venkateswara College of Engineering

Bachelor of Engineering in Computer Science
2021 – 2025

DAV School, Adambakkam

Primary and Higher Secondary education

SKILLS

- Penetration Testing
- Kali linux
- C, C++, Python, JavaScript
- Organizational and Time-Management skills
- Communication and Analytical skills

CERTIFICATIONS

- ZTM Ethical Hacking Bootcamp Certification
- Mr.Cooper & CSI-SVCE Hackathon HaCKIT2.0 Certification
- Shaastra Defence Tech Summit IITM Certificate Program

PROJECTS

RESQ

DISASTER MANAGEMENT APPLICATION

- Designed a flood management application focused on user needs specifically for Chennai, incorporating roles such as Volunteer, Assistance Request, and NGO to streamline coordination for efficient support
- Crafted a UI/UX to boost accessibility and engagement on Android. Developed backend solutions using Node.js, Express.js, and MySQL to ensure efficient data management
- Performed thorough investigation into flood-prone regions, user interactions, and stakeholder requirements to guide the design of the app's features and functionalities

FOUNDUP

STARTUP CONNECTING APPLICATION

- Project FOUND UP, an interactive platform linking startups with venture capitalists and investors according to their specialized knowledge
- Creating an interactive interface aimed at empowering startups to present their business concepts to prospective investors, simplifying the fundraising journey.
- Utilized backend technologies like Node.js and Express.js to build a solid framework ensuring smooth operation
- Utilized machine learning algorithms to pair preferred investors with viable startups, thereby optimizing the effectiveness of investment choices
